

What is the difference between -8 and -9?

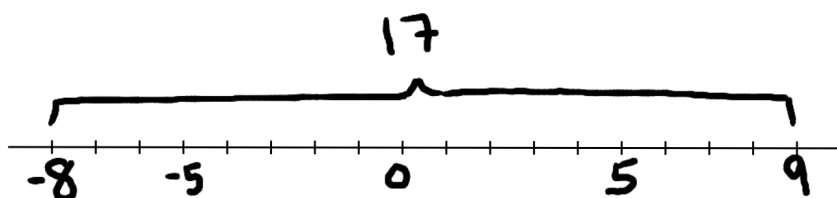

We will write this using math as follows:

$$-8 - (-9) = -8 + 9 = 1$$

$$-9 - (-8) = -9 + 8 = -1$$

What is the difference between -8 and 9?

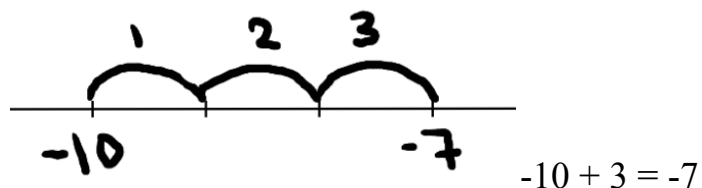

We will write this using math as follows:

$$-8 - 9 = -17$$

$$9 - (-8) = 9 + 8 = 17$$

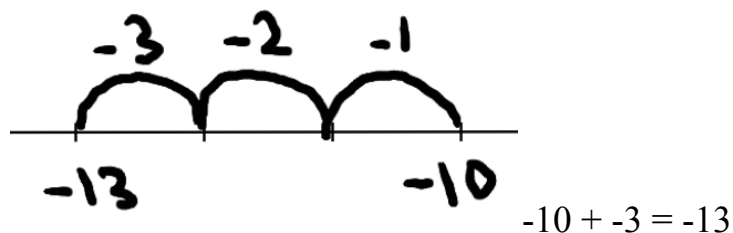

What is $-10 + 3$? Do we move to the left or right on the number line?

Move move to the right

What is $-10 + -3$? Do we move to the left or right on the number line?

Move move to the left

Extra:

$$3 - 4 = -1$$

$$3(-4) = -12$$

$$3 \cdot -4 = -12$$

$$- \cdot - = +$$

$$- \cdot + = -$$

$$+ \cdot - = -$$

$$+ \cdot + = +$$
